

AngelWatch National Accreditation Program for **Safety & Security**

Endorsements and Partners

We are listening to parent's wants and concerns.

You will now know with confidence that your Child is in the hands of the best trained staff in the Country.

The AngelWatch National Accreditation Program has the highest standard of Security & Safety trainings, protocols and technology than any required for licensing in all 50 states.

A **Continuing Education Program** for the **Safety** and **Security** of Children, Teachers, and Schools

Safety is **AngelWatch's** and Our Centers #1 Priority

What parents assume is not always reality.

It is the AngelWatch Foundation and our Center's responsibility to educate parents on realities of the **Safety** and **Security**.

Parents would like to think that their children are safe when they put them in the care of others

Unfortunately, that is not always the case. The people that dedicate their lives to education are teachers and professional caregivers, they are not trained to handle life-and-death emergencies. That is why the **AngelWatch National Accreditation Program** was created.

The accreditation is recognized by the Department of Homeland Security and partnered with the American Red Cross to make sure that **Safety** and **Security** is of the utmost importance when it comes to protecting your children.

States mandate **minimum training** when it comes to Safety and Security. The criteria that the state mandates let's each School / Center make their own emergency procedures and then it is approved by the state. Unfortunately, the people that are involved in educational facilities, daycares, preschools and Early Learning Centers are not qualified to teach this type of trainings.

There are very few state-mandated courses.

The reason why? There are no "cookie cutter" techniques or training that can be done in a facility. Each facility is different, each facilities classrooms and campuses are different, there is no way that the state can give such trainings.

Another reason why, because they have no one qualified to do it.

No matter how hard we try or how a state would want to, there are not sufficient qualified personnel to do such.

All of our Procedural & Security plans are more in depth than any state required plans and training.

As an AngelWatch National Accredited Center, **Coastal Middle & High School** is now in a continuing educational program by the best **trainers in the world** that have trained on every continent for multiple governments & the United State Military with "**real world**" experience. Some of the trainings are:

- CPR / infant, toddler, adult
- COVID-19 Awareness and Protocols
- First aid training
- AED / automated external defibrillator training
- MAT / medication administration training
- Fire evacuation procedures and equipment
- Access Control procedures and protocols
- Shelter in place
- Parent child abduction
- Lockdown procedures external threat
- Lockdown procedures internal threat
- Lockdown procedures natural disaster
- Bomb threat procedures and protocols
- Emergency evacuation procedures and protocols
- Active shooter procedures internal threat
- Active shooter procedures exterior threat

With the AngelWatch National Accreditation Program's technology.

The **AngelWatch** Foundation has now made it possible that in case of any emergency that all emergency services will have instant access to your Child.

Police, Fire and Emergency Medical Technicians will now be able to assess a situation before getting to the emergency.
